## Education

### ENSA of Tangier

Computer Engineering

Expected sept 2024

Morocco , Tangier

- **Relevant Coursework:** Data Structures and Algorithms (C++,java,php), Linear Algebra w/Computational Applications (JEE,Sprint Boot ,Laravel)

## Experience

### Digital Place — COACH DIGITAL — [express.js](#) , [react.js](#)

Software Engineer

may 2024 – sept 2024

Morocco, Tangier

- Developing a microservices architecture with Node.js and Express, and adding a new feature using React.

### Nostrum media — E-MedConf — [spring Boot](#) , [Spring security](#) , [vuejs](#)

Software Engineer

feb 2024 – may 2024

Morocco, Tangier

- Developed a multi-user medical videoconferencing application with roles for admin, doctor, and patient using Spring Boot, Spring Security, Vue.js, and MySQL.

### COFICAB — AUDIT MANAGEMENT

Software Engineer

july 2023 – sept 2023

Morocco, Tangier

- Design and develop public-facing auditor applications across all layers, implement a custom NetBeans library with frames and Swing components, and use MySQL with auto triggers for database management.

### Polydesign — BONUS MANAGEMENT

Software Engineer

july 2022 – sept 2022

Morocco, Tangier

- Implemented Qt and Bus Monitor features in a C++ desktop app, used Excel for data storage, and managed user-reported issues with continuous updates.

## Projects

### Department Management | [Sprint Boot](#) , [Thymleaf](#) , [Mysql](#)

- Developed employee management system with Spring Boot, MySQL, enabling data insertion, display by department, adding/updating/deleting employees, statistical analysis, average age calculation, with server-side validations and user-friendly interface.

### E-Commerce FrontEnd | [react.js](#) , [Bootstrap](#)

- Developed front-end for e-commerce project with full features, including filters, sorting, product display, and seamless user experience.

### Student CV Manager | [android studio](#) , [java](#)

- Developed a mobile app using Android Studio to manage engineering student CVs, leveraging SQLite for robust data management, facilitating efficient CRUD operations with a user-friendly interface, demonstrating conceptual decisions, technical problem-solving, and valuable learning experiences.

## Technical Skills

**Languages:** Arabic (C1) , French (B2) , English (B2), Español (A1)

## Achievements

**2024 :** Computer Engineering

**2022 :** JNJD Certificate, during the National Young Developers Days

**2022:** MNPC22 de MNPC Moroccan National Programming Contest

**2021:**The 2021 ICPC Moroccan Collegiate Programming Contest

**2019:** Graduated baccalaureate mathematics

**2018:** Injaz prize of innovation
