# ABDELLAH DIDI

📞 +212 6 35 30 27 58　✉ abdellahdidi26@gmail.com　in abdellah-didi　○ ABDELLAHDIDI　📍 Tanger

## Education

**ENSA of Tangier**　　　　　　　　　　　　　　　　　　　　　　　Expected sept 2024
*Computer Engineering*　　　　　　　　　　　　　　　　　　　　　*Morocco , Tangier*
- **Relevant Coursework:** Data Structures and Algorithms (C++,java,php), Linear Algebra w/Computational Applications (JEE,Sprint Boot ,Laravel)

## Experience

**Digital Place — COACH DIGITAL —** *express.js , react.js , tailwind css*　　　may 2024 – sept 2024
*Software Engineer*　　　　　　　　　　　　　　　　　　　　　　*Morocco, Tangier*
- Developing a microservices architecture with Node.js and Express, and adding a new feature using React.

**Nostrum media — E-MedConf —** *spring Boot , Spring security , vuejs*　　　feb 2024 – may 2024
*Software Engineer*　　　　　　　　　　　　　　　　　　　　　　*Morocco, Tangier*
- Developed a multi-user medical videoconferencing application with roles for admin, doctor, and patient using Spring Boot, Spring Security, Vue.js, and MySQL.

**COFICAB — AUDIT MANAGEMENT**　　　　　　　　　　　　　　july 2023 – sept 2023
*Software Engineer*　　　　　　　　　　　　　　　　　　　　　　*Morocco, Tangier*
- Design and develop public-facing auditor applications across all layers, implement a custom NetBeans library with frames and Swing components, and use MySQL with auto triggers for database management.

**Polydesign — BONUS MANAGEMENT**　　　　　　　　　　　　july 2022 – sept 2022
*Software Engineer*　　　　　　　　　　　　　　　　　　　　　　*Morocco, Tangier*
- Implemented Qt and Bus Monitor features in a C++ desktop app, used Excel for data storage, and managed user-reported issues with continuous updates.

## Projects

**Department Management** | *Sprint Boot , Thymleaf , Mysql*
- Developed employee management system with Spring Boot, MySQL, enabling data insertion, display by department, adding/updating/deleting employees, statistical analysis, average age calculation, with server-side validations and user-friendly interface.

**E-Commerce FrontEnd** | *react.js , Bootstrap*
- Developed front-end for e-commerce project with full features, including filters, sorting, product display, and seamless user experience.

**Student CV Manager** | *android studio , java*
- Developed a mobile app using Android Studio to manage engineering student CVs, leveraging SQLite for robust data management, facilitating efficient CRUD operations with a user-friendly interface, demonstrating conceptual decisions, technical problem-solving, and valuable learning experiences.

## Achievements

**2024**: Computer Engineering
**2022**: JNJD Certificate
**2022**: MNPC22 of MNPC
**2021**: The 2021 ICPC
**2019**: Graduated baccalaureate mathematics
**2018**: Injaz prize of innovation

## Technical Skills

**Languages**: Arabic (C1), French (B2), English (B2), Español (A1)
**Programming Languages**:c,c++,c,php,java,python,js
**frameworks** :reactjs,expressjs,vuejs, Laravel,JEE,Sprint boot , Sprint Security ,thymleaf , Blazor , bootstarp , tailwind css
